Re: National Whistleblower Day – Toll and Roll™ Delegates Reaffirming Remedy and Duty to Act

Dear _____,

On this National Whistleblower Day, July 30, 2025, we write to you not simply in recognition of those who have stepped forward to reveal corruption, but as participants in the Toll and Roll™ mission—citizen-led delegates crossing the nation to bring lawful remedy where public institutions have failed. Since 2019, our teams have submitted sworn evidence, affidavits, and legislative petitions exposing systemic fraud, title theft, identity trafficking, CPS/APS abuses, guardianship abuse, judicial warfare and obstruction within government and courts.

Our delegates have met in person with the Department of Government Efficiency (DOGE), delivering sealed evidence to another agency and remedy intended to protect the People and expose ongoing harm. This letter is not a legal notice—it is a public record, a historical record, and a formal reminder of your responsibility to act on behalf of the People. You, as a public servant, are now on record. Plausible deniability is no longer an option. We urge you to assist in the lawful remedy of these injuries, and to begin actively participating in redress. Failure to do so not only perpetuates the harm but may expose offices to future civil and criminal liabilities.

We continue to cross the nation to deliver evidence. We expect accountability, transparency, and honest engagement. We do not seek conflict—we seek justice. You are hereby asked to review the documents delivered to your office and to respond to tollandroll2025@gmail.com.

In honor of National Whistleblower Day, we ask you to stand with us—for truth, for remedy, and for the People.

Sincerely,
