

THE PEOPLE'S REMEDY AND RESTORATION ACT

H.R. 1776: THE PEOPLE'S NEW DECLARATION OF INDEPENDENCE (2025)

(Distinct from the unrelated medical bill using the same number. This Act serves as an umbrella for all legislation restoring lawful governance, remedy, and accountability.)

To: _____

In support of Toll and Roll™, the People of these United States call for the full advancement of The People's Remedy and Restoration Act — H.R. 1776: The People's New Declaration of Independence (2025). This Act stands as the one lawful correction to unify and restore all systems of governance, law, and justice. It and the documents included inside it can be read online at www.tollandroll.com.

Born from a nine-year Petition of Remonstrance encompassing all 50 States, with 40 of them ratified, and over 600 agencies, this Act also creates the Office of P.R.O.T.E.C.T. — the People's Restorative Oversight for Transparency, Enforcement, Correction, and Truth — ensuring that all branches of government and corporate entities are held accountable under law. Once established, this oversight ensures that all future legislation and government actions are enforceable, lawful, and uniformly aligned under the original constitutional framework of these united States — the one founded in consent of the governed, not the corporate constitutions that have divided authority.

The Act directly addresses property and land deed fraud, forged and perjured documents, judicial and data corruption, Child Protective Services (CPS), Adult Protective Services (APS) and the epidemic of child and elder trafficking, including government sponsored/Medical Sponsored/Judicial Sponsored kidnapping, and conservatorship/guardianship exploitation. Through the framework of P.R.O.T.E.C.T., the People demand transparency, restitution, and an end to crimes against humanity, on our own land and world wide!

In Unity and Restoration,

Name: _____
