

The People's Remedy and Restoration Act- The New Declaration of Independence 2025

Re: Toll and Roll™

How Our Courts and Banks Broke the Money System, and How The Proposed Bill Addresses Monetary Reform

What's the Problem?

- We're exposing how America's financial and legal systems have been turned into engines of profit at the people's expense. Banks, courts, and legal firms have created a rigged game where they:
- Manufacture fake mortgage-backed securities (MBS) to defraud investors and steal homes.
- Use the courts like cash registers, profiting from foreclosures, fines, and seizures.
- Turn people's property, hardship, and even their lawsuits into financial products.
- Strip away real ownership rights while hiding behind complicated paperwork and legal tricks.

What are they doing? These systems have been weaponized to:

- Create fake debts using your home, land, children and elders via probate.
- Seize property through forged documents and foreclosure fraud.
- Profit off your suffering by turning court cases into government bonds and securities.
- Silence victims and whistleblowers by throwing out evidence and intimidating lawyers.
- This isn't just corruption, it's a full-scale economic war on the people.

What's the money reform we are demanding?

- 1. End Wall Street's Monopoly on Money Creation
Stop letting private banks create fake wealth through risky financial products like MBS and derivatives.
- 2. Restore Real, Tangible Ownership
Property should be owned free and clear, not traded on secret markets by hedge funds and banks.
- 3. Defund the "Cash Register Courts"
Stop the courts from profiting off cases. Justice isn't for sale.
- 4. Audit and De-Financialize the Legal System
Investigate courts that act like investment brokers. No more court-created securities.
- 5. Return to a Constitutional, Common Law System
Reestablish a system where rights, property, and money are rooted in truth, transparency, and the public good.

Why does this matter?

- This isn't just about one homeowner, one child, one parent, one family or one case. This is about systemic financial abuse that affects millions, stealing homes, savings, property inheritances, equity, children and futures.

We're calling for:

- Criminal investigations
- Federal audits
- Emergency reforms
- And most importantly: accountability and restitution for the people.

Final word

- We don't just want justice, we want a new economy built on truth, not tricks.
- #WeAreTheCreditors #EndCashForKids #EndElderAbuse #whereisjonahrief #EndDeedFraud
